

## Manitowoc Ice Named "Overall Best In Class" ...Again!

When you recommend a product to an operator, you place your reputation on the line. You also trust that the manufacturer will be supportive long after the sale. More importantly, you need to feel the manufacturer is committed to the business relationship long after the product has left the showroom. As for the operator, they need to feel that the equipment they purchased will meet their needs and ultimately the needs of their customer. Getting things right for everyone involved is no small feat and Foodservice Equipment & Supplies (FE&S) acknowledges this accomplishment.

For the eighth straight year, FE&S has conducted the Best in Class Study. This year the staff analyzed over 1,000 surveys completed by their subscribers. The results uncovered companies that have earned a reputation for being the "best of the best". This year, as in the past seven years, Manitowoc Ice has been recognized as the leader in its respective category.

**Manitowoc Ice was voted "Overall Best in Class" in the ice machine category.**

According to the respondents, this vote represented a clear indication that product quality, and service and support are the attributes consultants, dealers and operators value most from equipment manufacturers.

Manitowoc Ice wants you to know that we are appreciative of our "Best in Class" designation among ice maker brands. We will continue to work hard to maintain the level of service and commitment that you expect and deserve.
